

Vietnam to issue E-VISA to citizens from 80 countries from July 1, 2020

From July 1, 2020, the Government of Vietnam will issue electronic visas (30-days visa) to citizens from 80 countries as per Resolution No. 79/NQ-CP.

What is Resolution No. 79/NQ-CP?

As per the Resolution, citizens of 80 countries will be eligible for e-visas at specific ports of entry (international airports, land borders, and seaports) that have been chosen to allow entry and exit for foreigners.

For details on the nationalities eligible for electronic visas as well as a full list of the ports of entry accepting this visa, readers can refer to the appendix at the end of this document.

How will it impact?

While this is a positive sign, Vietnam's borders remain closed to visitors due to the pandemic. Further the government has not made any decision on when it will reopen the country's borders. The suspension of visas remains in place since March 18, though there are limited exemptions for diplomats, officials, foreign investors, experts, and skilled workers. Additional health restrictions and quarantine still apply for any foreign travelers that are allowed entry into Vietnam.

What should clients do?

Those who would like to enter or exit Vietnam in the near future should follow [Vietnam's Tourism Ministry](#) and [Vietnam Briefing](#) for timely updates.

How can we help?

As of now, we are unable to estimate when these restrictions will be lifted. However, if clients have an urgent need to enter Vietnam, our specialists can help submit your request to the Labor Department on a case-by-case basis and provide detailed guidance with regard to gaining entry to the country.
